

TOBACCO BUYERS ARE MOVING ABOUT FEW ROCK COUNTY SALES ARE RECORDED.

Old Leaf Kept on the Move in Moderate Quantities—Another Edgerton Warehouse—Buyers After Choice Selections Outside of the Hail Regions.

There is a deal of riding being done for the amount of buying that has taken place. Dealers are out in several sections, and a still hunt practiced. It is next to impossible to get at details of the transactions, but we are creditably informed that quite a little tobacco has been contracted for in northern Dane county and the Rio section, at prices ranging from six to seven cents. The aim of the buyers seems to be to pick up choice sections outside of the hail regions, and caution the growers to be wary about the matter. It is a foxy proceeding, but does not tend to induce a general movement of the crop.

Old leaf continues to move in moderate quantities, says the Wisconsin Tobacco Reporter. Wm. S. Brill has purchased upwards of 1000 cases, mainly shorts, recently of local packers. C. L. Cullen reports the sale of 300 cases of '97 for the week. Several other smaller lots have been disposed of.

And still another new warehouse is to be added to the storage facilities for tobacco in this market. Mr. C. F. Mabbett has broken ground for a building to be located on lots in the rear of his residence, 40x100 feet, to be used for storage solely. The warehouse will be iron clad and have a capacity for about 5,000 cases.

The weather has brought a good deal of casing weather of late and quite a little of the new crop has been removed from the poles. The danger will lie in taking down tobacco in too high case this season, which the growers should guard against.

The shipments out of storage reach over 900 cases or about twenty car loads to all points for the week. Since last report 1200 cases of cigar leaf were exported from New York. The American Tobacco Co. were the purchasers of 2600 cases of '97 Wisconsin leaf last week.

A meeting of the tobacco growers of northern Dane county, who were policy holders in the Sparta Hail Insurance company was held at Sun Prairie last week when the matter of contesting the assessments was discussed. A report of a committee appointed at a previous meeting to visit Deerfield and confer with its policy holders and also to examine the company's books at Sparta was read and discussed. S. T. Swanson, of the firm of Erdall & Swanson, of Madison, was present and explained the law under which the company was working, and also stated that as the insurance commissioner had required the company to put up \$50,000 bonds, in his opinion it would be much better to pay up at a 4 per cent. rate named than to organize and fight the matter. Thereupon a vote was taken to determine which should be done and the result was unanimous in favor of paying up.

Just what effect this settlement will have with the Rock county growers who are now involved in the same trouble with the same company, remains to be seen.

Attorney M. O. Mount, who represents the Rock county farmers who have organized to fight the assessment, says that no action has been taken on either side, and that she farmers are now awaiting some move on the part of the Sparta company.

VERDICT IN VIRDEN CASE.

No Responsibility Fixed for Death of Men Killed in the Riot.

Carlinville, Ill., Oct. 28.—The Virden coal miners' riot jury, impaneled Oct. 12, returned its verdict Thursday, and was discharged by Coroner Hart. Verdicts were returned in the cases of the following, who were killed: Albert Morgan, Thomas Preston, D. H. Killey, detectives of the Thiel agency of St. Louis; A. H. Brennenman, Ernest Kintzner, Elias Smith, Edward Welsh, Frank Biljeu, Joseph Ketterly. The inquests on the remaining four victims were not held in this county. The verdict in each instance was: "The deceased came to his death by gunshot wounds, in the hands of parties unknown to us."

No one in any case was censured or condemned in any way, and no suggestions or recommendations are made to the grand jury that convenes in this city Nov. 9 for the purpose of investigating the causes of the riot and fixing the responsibility.

Rushing War Preparations.

London, Oct. 28.—The Daily News sent a special correspondent to ascertain the truth of the reported naval preparations at Portsmouth. He writes that the dock yard is full of unwonted activity, and echoes from end to end with the noise of preparations. Fifty torpedo-boats and torpedo-boat destroyers are being rapidly overhauled and can be made ready for service in a few hours. Thousands of tons of coal are being poured at topmost speed into the bunkers of several vessels, and food and ammunition are going aboard as rapidly as the men and derricks can work.

BRIEFS FROM BELOIT

Spooner to Speak—Matrimonial—W. C. T. U. Convention—Mr. Whetstone's Death.

Beloit, Wis., Oct. 28.—[Special]—Senator John C. Spooner will speak in Wilson's Opera house next Tuesday night, November 1, on the issues of the campaign.

Charles E. Edwards and Miss Minnie Turner were married Wednesday at the home of the bride, who is a daughter of Mr. and Mrs. Watson Turner, Janesville, Prairie road. The groom is the eldest son of Mr. and Mrs. C. H. Edwards, of Turtle. The ceremony was performed by Rev. W. W. Sleeper and only the relatives were present.

The Woman's Christian Temperance convention came to a close last night. The lecturer was Miss Marie C. Brehm, of Chicago, who is one of the brightest speakers in the country. She spoke on the temperance question. The election of officers took place yesterday as follows:

President, Mrs. Fie Campbell, Evansville.

Corresponding Secretary—Mrs. E. E. Pratt, Evansville.

Receiving Secretary—Mrs. E. Dickerson, Johnstown Center.

Treasurer—Mrs. Alice Maxon, Watworth.

Director of the Eau Claire House—Mrs. P. E. Miller, of Milton.

Mrs. Miller, of Milton, conducted the morning devotional and Mrs. E. M. J. Thomas, of Janesville, led a bible reading. Yesterday afternoon Mrs. Bower, of Kenosha, led the devotional meeting. Papers were read by Miss H. M. Perkins, of Kenosha, on superintendents, their duties and difficulties and Mrs. L. S. Kearney, of Janesville read a paper on the franchise question.

The funeral of Fred Whetstone, who was instantly killed Wednesday night at seven o'clock while examining the electric light that hangs in front of the Fairbanks, Morse & Co. works will take place this afternoon from the house at 2 o'clock and from the Presbyterian church at 2:30 o'clock. The community was never in its history so shocked as to hear of the sudden death of Mr. Whetstone, for he was seen only a few moments before he was killed and it seemed impossible that he would meet death so suddenly. His death is quite a mystery to the electric light firm. He leaves a wife, two children, a mother, father, two sisters and one brother. Mr. Whetstone was one of the best workmen employed at the plant and he is a severe loss to Mr. Cole, the manager.

OBSERVE AN ANNIVERSARY

United Workmen Make Merry Over Their Thirtieth Birthday.

The thirtieth anniversary of the establishment of the A. O. U. W. was celebrated last evening by Olive Branch Lodge No. 86 at East Side Odd Fellows' hall. There was a large attendance of members and their friends. Milo Thayer had charge as master of ceremonies, and everything passed off smoothly.

Grand Master J. M. Thayer delivered a brief address appropriate to the occasion, and was followed by Fred M. Lloyd and John Shepard. Each gave historical sketches of the order and the work it had accomplished in the past.

Recitations followed by Misses Edna Murdock and Josephine Fenton. Both were capital, and drew forth loud applause from those present. E. O. Smith and Charles Patterson sang solos with excellent effect. Mrs. C. C. Bennett and Mrs. A. T. Kemmett played the accompaniments.

After the singing of "America" in concert the dance began, and continued till an early hour this morning. All returned to their homes well pleased with the evening's entertainment.

No Warships for Havana.

Washington, Oct. 28.—Admiral Sampson's appeal for warships to be sent to Havana will not be heeded by the Washington authorities, it being held that force cannot be properly used to intimidate the Spanish-Cuban commission, as it would be a violation of the spirit of the armistice which has existed since the signing of the protocol.

DREYFUS WILL BE SET AT LIBERTY

PLAN FOR HIS RELEASE WILL PREVENT SCANDAL.

It Will Simply Be Decried That His Offense Did Not Constitute Treason—Pleas on His Behalf in the Court of Cassation Occupied the Day.

Paris, Oct. 28.—[Special]—It now seems likely that Dreyfus will obtain his liberty and full exculpation from the charge of treason, for which he has been suffering imprisonment at Devil's Island for many years, without bringing about a public scandal. The plan is that the court of cassation, instead of ordering a revision of the case or annulment of the decision, will declare no treason was proven and, therefore, the Dreyfus court-martial was void and its finding ineffective. This course, it is believed, will be taken, and it is hoped will avert many of the threatened scandals as well as quieting the public.

The procurator general asks the court to suspend Dreyfus' punishment pending the decision of the court on the question of revision.

Paris, Oct. 28.—[Special]—A striking change it already evident in the aspect of the Dreyfus case and the acquittal of Dreyfus is regarded as being quite within the realm of possibility. Proceedings in the case of Dreyfus were resumed this morning, the scenes within and without the court room being similar to those of yesterday. Counselor Bard concluded his formal statement to the court as to the result of his investigation of available evidence, finally contending that the evidence actually reliable was insufficient for the conviction of Dreyfus. He declared that if the so-called secret evidence was not corroborated immediately, he would ask the court to conclude the inquiry and pronounce in favor of Dreyfus. Procurator General Manau at the beginning of his part of the discussion exclaimed: "Let us go on with the revision." This utterance created a sensation in the court room. He then declared that revision was a legal necessity. The false statements that had been made by Col. Henry and various other matters which have come to light were of such a nature as to establish the innocence of Dreyfus.

WARSHIPS FOR HAVANA HARBOR

SEVERAL WILL BE SENT WITH ARMY OF OCCUPATION.

Precautions Against a Repetition of the Maine Horror—Spain Asks That the United States Buy the Philippines—Senator Gray May Resign His Place.

Washington, Oct. 28.—[Special]—The president has decided that American warships shall be immediately stationed in Havana harbor. The delay in granting Sampson's request is due to the official reluctance to expose the vessels and sailors to a possible repetition of the Maine horror. Every precaution against recascity will be exercised. The warships to go will be the Vixen, Eagle, Montgomery, Wilmington, Nashville, Princeton and Vesuvius.

PHILIPPINES FOR SALE.

Spain Wants the United States To Pay for the Conquered Islands.

Paris, Oct. 28.—[Special]—One of the schemes of the Spanish peace commissioners is to cede the Philippines to the United States if that country will pay for them, as it paid Mexico for some of the territory taken after the war with that country, and as it has paid liberally for other territory ceded; but this will also be denied. The United States will not purchase the Philippines, and the Spanish commissioners know it. The Spanish commissioners will, however, make a stubborn resistance to the end, and renew Spain's appeal to the powers, to protect her from "the harsh aggressions of an unreasonable victor, bent on wiping Spain from the world's map as a nation." The democratic opposition to the war and to the acquisition of the Philippines is believed to give Spain and France (Spain's financial backer) encouragement to believe that they can compel the president to agree to purchase the Philippines, and thus recoup Spain for the Cuban debt loss to her treasury, rather than resume hostilities.

BLANCO HOLDS ON

Is Making No Preparations For Evacuating Havana.

Havana, Oct. 28.—[Special]—The situation here is not at all satisfactory to the American commissioners. General Blanco is practically defying the United States, and is no nearer surrendering Cuba than he was when the protocol was signed in Washington and hostilities were ordered suspended. He still rules Cuba with the exception of the province of Santiago. He is still collecting Spanish tariff duties at Havana, and pocketing the money. He is selling worthless military property, but keeping intact and under his control all the modern fortifications of Havana.

When the situation in Cuba is considered in connection with the situations in Paris and Madrid, officials acknowledge that it is rather serious. If peace negotiations should be broken off by Spain and hostilities resumed, the United States army would find Havana as difficult to take as it was last spring.

Manager Kearney, of the High school ball eleven, is striving hard these days to bring about a game in the near future with the celebrated Madison High school team, and the present outlook is that he may be accommodated. The Janesville boys are anything but afraid of the lads from the Capital City, and if such a thing is possible, they intend to give them one of their hardest games.

The home team is today the best High school eleven in this section of the state, and even if they score against Madison it would be so much to their credit. The idea is to play the game here, if possible.

The night prior to their departure they were given a hearty send off by a host of friends who had assembled at their old home.

NEW PASSENGER DON'T PAY

Northwestern Company Will Take On Its Milwaukee Train.

The morning passenger train on the Chicago & Northwestern road that arrives here from Freeport at 9:45 o'clock will be a thing of the past after this week. He was arrested once in Clinton, but made his escape from the officers.

Dreyfus to Be Released.

Paris, Oct. 28.—Capt. Dreyfus, the prisoner of Devil's island, it is believed here, will soon be a free man, declared innocent of treason, and at the same time further army scandals may be averted. According to the supposed plan the court of cassation, instead of ordering a revision of the case or annulment of the decision, will declare no treason was proven and, therefore, the Dreyfus court-martial was void and its finding ineffective.

Seven Men Sent to Jail.

Milwaukee, Wis., Oct. 28.—Much anxiety was caused here late last night when the steamer Gogebie came into the harbor and reported that her tow, the Biwabik, was somewhere adrift on Lake Michigan. To make the matter worse the barge had seven men aboard when the tow line broke, and the fate of these is unknown.

The tow line broke, while the craft was off Tow River's point, 100 miles north of Milwaukee. A terrific storm prevailed and the Gogebie had to make for port.

QUIET LEAF MARKET HERE

Very Little Business Being Transacted At Local Warehouses.

In speaking of the tobacco market this week's issue of the Farm and Home of this city, says:

The warehouses of this city present an aspect of quiet in nearly every instance. Some business is being done in old leaf but a majority of the sales are small in size, with an occasional deal of respectable proportions.

In the eastern markets the '97 Wisconsin is selling well and gives very good satisfaction to jobbers and manufacturers. Nearly 7,000 cases were sold in New York last week, of which 3,000 were in one lot.

The '98 crop is moving very slowly, the only sales reported being James Cochrane, 7 and 2c. Knut Skogan, 7 and 2c. We could not learn the number of acres each had.

George Rumliff bought a crop in Port but we could not get the price.

RUSH HIGH STREET MACADAM

Bad Weather of Late Has Delayed the Work.

Contractor Watson is rushing the work of macadamizing South High street from Milwaukee street to the south boundary of the high school. Twenty men were put to work this morning, and the dirt is being hauled away at a rapid rate. Much of the stone curbing has been set in place on High street, while on Dodge street it is all ready to be placed. Rainy weather of late has delayed the work and in order to complete the contract before snow flies will mean much hustling.

Working Toward Conference.

Springfield, Ill., Oct. 28.—An early settlement of the coal mining troubles at Virden is probable. Liberals Gaining in Germany.

Berlin, Oct. 28.—In the elections now in progress of secondary electors for choosing the members of the Prussian diet the scanty returns thus far received point to liberal gains, especially in Charlottenburg, Dantzig, Koenigsburg, Stettin and Kiel. The socialists are also active in the contest, for the most part supporting radicals.

SCHWAN'S REGULARS AT MAYAGUEZ, PORTO RICO. From HARPER'S WEEKLY

AFTER A DRAWING BY R. F. ZOGBAUM. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers

The brief campaign of Puerto Rico was conducted with skill and ability. Success followed the American arms in every movement, and was accompanied by comparatively little suffering and trivial loss, the enemy being compelled to abandon one position after another by the superior strategy of the Americans until the signature of the protocol to a treaty of peace put an abrupt end to hostilities. The stories of the splendid fighting and magnificent courage of our regulars in the battles before San Juan, in Cuba, the hardships they suffered have overshadowed in the public mind the comparatively small encounters with the enemy in Puerto Rico. Nevertheless the fighting there has been

sharp, the advance of our troops bravely resisted at more than one point, but it was never checked, and one town after another was opened to our troops. It fell to the good fortune of General Schwan's column—McCoomb's Troop Fifth Cavalry, some field guns and the Eleventh Infantry, afterwards reinforced by part of the First Kentucky—to occupy the pretty and populous town of Mayaguez, on the west coast, after the defeat of the enemy in a brilliant engagement near the Rosario, driving the Spaniards in the direction of Lares and uncovering Mayaguez, where the welcome by the inhabitants was of a nature seldom met with by an invading army. Our illustration, taken from Harper's Weekly, shows the troops shortly after entering the town. On every side they

were received as liberators from hated oppressors, old and young, black and all the intermediate shades up to and including white, men, women, and children vying with one another in cordial expressions of delight at their presence. The wounded, Spaniards and Americans, were cared for at the hands of the Red Cross Society and soon were housed in the theatre, for the nonce a hospital. Many were badly hurt, some in the shadow of death; but no murmurs escaped them as, friend and foe, the wounded lay together in clean white cots, cheered and comforted by their surroundings and the tender and sympathetic ministrations of their nurses. Our brave fellows could not tell in words of their gratitude to the dark-robed women hovering by their beds like

angels of all that is good and merciful; but Catholic or protestant, Dago or Yankee, none will forget the sweet-faced Spanish nuns, whose gentle hands and soft voices brought relief to suffering body and hope to sinking hearts. Schwan made but a brief stay in the town, his troops going into camp in the outskirts. Meanwhile the U. S. S. Montgomery arriving in the harbor, conveying reinforcements and supplies, the column moved out again, the advance guard overtaking and putting to rout the former garrisons, which had hurriedly evacuated Mayaguez on the approach of the United States force, capturing many of them, and bringing them back prisoners to the place where they had so long been masters.

NEWS FROM NEARBY NEIGHBORHOODS

INCOMINGS AND OUTGOINGS OF ROCK COUNTY PEOPLE.

Gossip of a Personal and Business Character Gleaned By Gazette Reporters in the Garden Spot of Wisconsin—Religious and Social Notes.

Afton, Oct. 28.—Afton people were very much shocked last Saturday afternoon when the intelligence flashed over the telegraph wires that George C. Sims had died suddenly in Chicago, whither he had gone the Monday previous to visit with friends and take in the peace jubilee. Mr. Sims' death was due to heart failure, he being stricken at the Chicago & Northwestern passenger station, where he had gone Saturday morning to take a train for home. Mr. Sims was the third son of George Sims and was 64 years of age. For many years he was in business at Alexandria, Minn., but since the death of his wife, a few years ago, he had retired from mercantile life and was living here with his aged father and his sister. Mr. Sims was a quiet, unassuming man, highly esteemed by those who knew him. His sudden and unexpected death was a great blow to his father, who is ninety-four years of age, and to his sister, Mrs. Pamela Treat, who will feel his loss keenly. Charles F. Sims, of Grand Forks, N. D., arrived here Monday morning in response to a telegram informing him of his brother's death, and left that evening for Alexandria, Minn., with the remains, where the funeral and interment took place. The Baptist church edifice will soon be resplendent in a fresh coat of paint, as painters began work thereon Thursday morning. Night Operator Matthews resumed his duties at the C. & N.W. depot last Monday evening. The Afton school is closed temporarily. The principal, Miss Lulu B. Wood, is on the sick list, with measles as the cause, and the school board thought best to have no school for the remainder of this week and next. Quiet has prevailed in local political circles thus far this fall, but the republicans expect to open the ball on Friday evening of this week, with a meeting at Lawton's hall to be addressed by Hon. William G. Wheeler, candidate for member of the assembly, and Malcolm O. Mount, the rising young Janesville attorney.

Milton Junction, Oct. 28.—Several weeks ago Rev. George W. Burdick and family are moving here from Walworth. He has rented the Peck house, on Second street. Hon. J. M. Whitehead will speak here on the political issues of the day, at Patrons of Husbandry hall, Monday, October 31. B. B. Keith has moved to the farm of his son, George B. Keith, and W. D. GOPHER AND BADGER TRY CONCLUSIONS

GREAT GAME OF FOOTBALL AT MADISON TOMORROW.

Minnesota Boys Were Brave Antagonists Two Years Ago, and a Good Game Is Anticipated This Year—Preparations For Entertaining a Big Crowd.

Madison, Wis., Oct. 28.—Everyone at the university is now looking forward to the Wisconsin-Minnesota foot ball game which will be played here tomorrow. Great preparations are being made for this game. Manager John Fisher has been busy in arranging for the game. Excursion rates have been secured on all the railroads leading to Madison, and an immense crowd is expected. Over 500 reserved seats have been already sold. Manager Fisher, of Janesville, has requested the various business firms of Madison to close from two to five o'clock on Saturday so as to allow everyone to take in the game. This was done two years ago for the Minnesota game, and will probably be done this year. Large bleachers have been erected at Camp Randall field and Manager Fisher and his assistants expect to be able to handle the crowd which will be present, to the satisfaction of all. The managing of a large foot ball game is no easy matter, and much credit is due Manager Fisher for his able management of previous games. It is an honor to Janesville to have so worthy a representative at the 'varsity.

In his handsome uniform he presents a striking appearance, and local friends by the score will extend congratulations.

THE SITUATION IN CUBA.

Gen. Blanco Is Pursuing a Policy of Delay.

EVACUATION NOT YET BEGUN.

There Are Still Nearly Two Hundred Thousand Spanish Soldiers on the Island—Mines in Havana Harbor Remain Intact.

Washington, Oct. 28.—The protocol by which Spain agreed to "renounce all claim to all sovereignty over and all her rights in the island of Cuba" and "immediately to evacuate Cuba" was signed Aug. 12, or nearly three months ago. For more than six weeks the American military commission has been in Havana to arrange the details of the evacuation, but there are nearly 200,000 Spanish troops in Cuba today, and none, except the sick, have been sent from Havana to Spain since the cessation of hostilities.

According to the report made to the war department by the American military commissioners, there are 118,000 regulars from Spain and 21,000 volunteers on duty in Cuba. In addition to these, there are 52,000 volunteers, armed, but not on active duty. This makes 191,000 Spanish soldiers in Cuba, under command of Gen. Blanco. With the exception of those surrendered to Gen. Shafter at Santiago, less than 10,000 of the Spanish troops have evacuated Cuba. The Spanish commissioners in Havana are still protesting that they cannot arrange to evacuate Cuba for six months, and it is not surprising that Admiral Sampson, Gen. Wade, and Gen. Butler, the American commissioners, are growing impatient at the delay.

Gen. Blanco has done nothing toward surrendering the sovereignty of Spain over Cuba. He is playing the game of delay even more successfully than are the Spanish peace commissioners in Madrid. He has practically all his army there. He has done nothing to remove the mines from Havana harbor, or put the Americans in possession of information as to how and where the mines are located, so that our own navy can remove them. The ships of the United States navy will be in the same danger that the Maine was in if they enter that harbor.

Gen. Blanco is practically defying the United States, and is no nearer to surrendering Cuba than he was when the protocol was signed in Washington and hostilities were ordered suspended. He still rules Cuba, with the exception of the province of Santiago. He is still collecting Spanish tariff duties at Havana and pocketing the money. He is selling worthless military property, but keeping intact and under his control all the modern fortifications of Havana.

When the situation in Cuba is considered in connection with the situations in Paris and Madrid, war department officials acknowledge that it is rather serious. If peace negotiations should be broken off by Spain and hostilities resumed, the United States army would find Havana as difficult to take as it was last spring.

It is believed that Spain could have had all her troops out of Cuba before Dec. 1 had she made any effort to live up to the protocol, but she has done everything to evade it. The most serious evasion is in keeping the secret of the mines in Havana harbor, to make it as dangerous for American transports to enter that harbor as it was for the battleship Maine last spring.

Will Cut Civil-Service List.

Washington, Oct. 28.—It is understood that a presidential edict removing a large number of government offices from the civil-service list will probably be promulgated shortly before Thanksgiving day. The order is one which has been in contemplation many months, having been deferred from time to time owing to the pressure of war business. As at present determined upon the order will affect upward of 6,000 places.

Returned Missionaries Heard.

Indianapolis, Ind., Oct. 28.—The eleven branches of the Woman's Foreign Missionary Society of the Methodist church are represented at the twenty-ninth annual meeting of the general executive committee of the society, which began here Thursday. Many returned missionaries were introduced to the meeting. The evening was devoted to hearing reports from the missionaries as to the needs in the field.

The speech of Father Abraham in the last number of Poor Richard's Almanac, published by Benjamin Franklin in 1757, "Contains the Wisdom of many ages and nations assembled and formed into one connected discourse." When first published it attracted world wide attention and was copied in all of the newspapers in America and England and translated into many foreign languages. Would you not like to read it? Lutherans Elect Officers.

Lena, Ill., Oct. 28.—At Thursday's session of the Lutheran Women's Home and Foreign Missionary Society officers were elected for the ensuing year. Mrs. C. F. Fleckinger of Dixon is president.

FAURE IS SAFE.

Rumor That the President of France Was Slain Is False.

Paris, Oct. 28.—President Faure smiled when shown a London dispatch containing the widely circulated rumor that he had been assassinated. To those who know the situation it appeared as an utter absurdity that M. Faure could be murdered. In all Europe no crowned ruler is so closely guarded as is the president of the French republic.

He is constantly surrounded by a corps of the best detectives in Paris and every precaution is taken to preserve him from such a fate as has befallen others occupying his exalted position.

Paris is still upturn and the republic is still without a ministry. The problem is one of great seriousness.

The Dreyfus revision, the arrival of Capt. Baratier, the passing through of Gen. Kitchener, the unsatisfactory condition of the Fashoda matter make an unpleasant combination for the government, which has no cabinet to handle it.

Deadly Nervous.

GENTS.—I was dreadfully nervous and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

Army of the Tennessee Election.

Toledo, O., Oct. 28.—The Society of the Army of the Tennessee elected the following officers: President, Gen. Greenville M. Dodge of Iowa; corresponding secretary, Gen. Andrew Hickelopper of Cincinnati; recording secretary, Col. Cornelius Cadle of Cincinnati; treasurer, Gen. Manning F. Force of Sandusky, O. The next meeting will be held in Chicago.

KARL'S Clover Root Tea for constipation. It's the best, and if after using it you don't say so, return the package and get your money. For sale by People's Drug Co.

Kitchener Hopes for Peace.

Paris, Oct. 28.—The Evening Post publishes a report of an interview with Gen. Kitchener, in which he is quoted as saying: "I am only a soldier and am ignorant of diplomacy, which is not my business, but I hope the diplomats will succeed in settling the difficulty amicably. I can only praise the French, particularly Maj. Marchand, who received me at Fashoda with charming cordiality; and I shall always retain a souvenir of the reception. The situation is rightly regarded as most critical, but I cannot approve of those who say that war is the only solution. Calm, courteous discussion will give a solution acceptable to both nations. I have entire confidence in diplomacy."

If the Baby Be Cutting Teeth.

Put on and use the old and well tried remedy Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Will Recall Marchand.

London, Oct. 28.—It seems safe to predict that if Fashoda is the only possible casus belli between Great Britain and France there will be no war. Practically "the Fashoda question" no longer exists, for it is all but officially declared that Capt. Marchand will be recalled almost at once, the question of so-called "compensation" for the recall being left to future consideration.

Strike on at Ishpeming.

Ishpeming, Mich., Oct. 28.—The trammers who struck for 25 cents advance Monday have refused an offer of 20 cents and their places will be filled with new men at the advanced wages offered by the mining company. Despite widespread unrest among the miners a general strike is improbable, it seemingly being the policy of the mine-workers to inaugurate a series of small strikes at different mines among the various branches of mine labor.

Cabinet Council in London.

London, Oct. 28.—A cabinet council was held at the foreign office today. All the members of the cabinet were present and the meeting lasted two hours. When the ministers left the foreign office they were smiling and did not give any indication of serious apprehensions of the future. The French ambassador, Baron de Courcel, saw the marquis of Salisbury immediately at the conclusion of the cabinet meeting.

To Enjoin Gov. Tanner.

Chicago, Oct. 28.—The coal operators of Illinois interested in the Virden situation are preparing a petition to be presented soon in one of the United States courts for an injunction to prevent Gov. Tanner from interfering with the importation of laborers to take the places of men formerly employed at the seat of trouble.

Wish This Country Represented.

Washington, Oct. 28.—The department of state has received from the British embassy an invitation to the government of the United States to take part in the Western Australian International Mining and Industrial exposition, which is to be held at Coolgardie, beginning March 21, 1899, and continuing three months.

May Accept Hobson's Plans.

Washington, Oct. 28.—Instead of rejecting the plans of Lieut. Hobson for raising the Spanish ships at Santiago, there is every probability that the project of saving them will be authorized by the government and that two, perhaps three, of them will be added to the navy.

BIG STEAMER SUNK.

The L. R. Doty, with a Crew of Fifteen Men, Has Foundered.

Chicago, Oct. 28.—Floating wreckage picked up yesterday off Kenosha is believed to forecast the story of a fearful lake disaster.

The steamer L. R. Doty, with her crew of eighteen men, is missing. Marine men think they were lost in the great storm of Tuesday. The names of the crew so far as known follow:

CAPT. CHRISTOPHER SMITH,

Port Huron.

CHIEF ENGINEER THOMAS AB-

ERNETHIE, Port Huron.

FIRST MATE HARRY THORPE,

Detroit, Mich.

STEWART DOSS, West Bay City,

Mich.

The others of the crew are not

known to the owners in Cleveland.

The probable fate of the Doty was learned by the tug Prodigy, which was sent out by the Independent tug line to search for the Doty and the schooner Olive Jeanette, which the steamer had in tow. When about twenty-five miles off Kenosha the Prodigy came upon a large amount of wreckage, consisting of pieces of deck, a pole made painted brown, cabin doors, stanchions from the after part of a steamer and much lighter woodwork. A piece of the steering pole which projects from the bow was also brought in. The mahogany veneering on the cabin doors was the most significant as to identity.

A description of the wreckage was at once telegraphed to Cleveland and shown to W. A. Hawgood. So far as he knew it corresponded with the fittings of his steamer.

The bargain seekers should not miss the dainty luncheons served in the dining rooms The Mrs. Clark Co., 151-153 Wabash ave., Chicago. The establishment has recently been refitted, improved and enlarged. It caters to the best—not only in patronage but in the quality of the food, and in the service. Everything is home-like.

Very Light Catch of Seals.

Victoria, B. C., Oct. 28.—The official statement of the sealing industry for the season just closed shows a total of but 27,885 skins for the fleet of 35 schooners, by far the lightest catch in years; also fewer schooners have been employed. The catch is divided thus: Asiatic coast, 440; British Columbia coast, 10,055; Bering sea, 17,370.

To Inaugurate Federation Nov. 1.

New York, Oct. 28.—The Herald's correspondent at Managua sends word that the provisional federal government of the United States of Central America, composed of the republics of Nicaragua, Salvador and Honduras, will be inaugurated at Amapala Nov. 1.

TUMOR EXPELLED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound.

Mrs. ELIZABETH WHELOCK, Magnolia, Iowa, in the following letter describes her recovery from a very critical condition:

"DEAR MRS. PINKHAM:—I have been taking your Vegetable Compound, and am now ready to sound its praises. It has done wonders for me in relieving me of a tumor."

"My health has been poor for three years. Change of life was working upon me. I was very much bloated and was a burden to myself. Was troubled with smothering spells, also palpitation of the heart and that bearing-down feeling, and could not be on my feet much."

"I was growing worse all the time, until I took your medicine."

"After taking three boxes of Lydia E. Pinkham's Vegetable Compound Lozenges, the tumor passed from me."

"My health has been better ever since, can now walk quite a distance and am troubled no more with palpitation of the heart or bloating. I recommend your medicine to all sufferers from female troubles."

It is hardly reasonable to suppose that any one can doubt the efficiency of Mrs. Pinkham's methods and medicine in the face of the tremendous volume of testimony.

LET WELL ENOUGH ALONE.

The Addison Record, one of the leading democratic journals of New York state, renounces Bryanism and supports the republican ticket. In explanation of the step the Record says:

"Henceforth the Record is a republican newspaper, advocating its principles and upholding its nominees. We have watched and waited for the democratic party to come to its senses, until hope has grown gray. We are convinced that the best interests of the country require the election of the republican candidates. The campaign of 1898 is the skirmish line for the battle of 1900, and neither reason nor conscience permits us to fight in the free siver battalion. We follow no party which is for free silver in national affairs, and which bends the knee to Tammany in the great Empire State. The experiences of the last two years have taught us that the republicans were right in 1896, and that if Bryan had succeeded the credit of the nation would now be on a par with that of Spain. Since the election of McKinley there has been rapid progress toward prosperous times and when we compare the situation of today with that of four years ago, when business was at a standstill and tens of thousands of people were fed by charity in the great cities of the land, we cannot escape the conclusion that the welfare and happiness of the whole country may be better served by a continuance of the present system. Business men do not want a change, farmers do not want a change. Let well enough alone. We are now well started towards an era of prosperity that promises to exceed any the world had ever known. We propose to do our part to aid, not defeat, that consummation."

BABBITT'S UP-HILL JOB.

In speaking of Clinton Babbitt's campaign, the Beloit Free Press says: "Ex-Congressman Babbitt finds campaigning in the First Congressional district very uphill work. He finds no republican dissatisfied with President McKinley's administration, and consequently finds that every one is waiting for the 8th of November to vote for that true and staunch McKinley supporter in congress, Congressman H. A. Cooper. Mr. Babbitt also finds it uphill business to induce any man to promise to vote for a man who is elected to congress would vote to swindle every creditor in the country by making 40 cents worth of silver pay a dollar's worth of debts."

Superior Leader—Senator Spooner, according to custom, opened the republican campaign in Milwaukee Thursday evening with a characteristic speech, presenting in forceful and logical manner the issues before the people. From the extracts printed in this issue it will be seen that the senator does not regard this as an "off year" when the republicans of Wisconsin can afford to rest in the fancied security of their big majority of 1896, but believes it a time for aggressive vigilance in combatting the

propagation of those heresies which were then overthrown but not eradicated.

The democratic press is decidedly mum on the question of Bryanism, but cannot convince the people that the Bryan platform of the Wisconsin democracy was adopted through inadvertence. The adoption of the Bryanistic plank means that people who vote the democratic ticket must endorse Bryanism, and the fact sticks out prominently despite the attempts of the organs to hide it.

It is the duty of every voter to cast his ballot on election day, and thereby show that he takes an interest in the government of his native country. This advice is meant for all voters of all parties. People may differ as to political principles, but there should be no difference of opinion as to the duty of the citizen to cast his ballot.

The democratic and populist platforms in Wisconsin this year are identical in principles. The populists have not become democrats, but the democrats have become populists. Therefore the voters of all parties have their choice between populism and republicanism.

NOT SO HIGHLY SENSATIONAL.

The Philadelphia Cabinet Meeting Fails to Arouse Washington.

Washington, Oct. 28.—Wednesday's cabinet meeting held in Philadelphia has not aroused any wild comment here, for it is not considered a wonderful thing that the president should consult with his advisers.

Numerous cabinet meetings were held during the president's western trip. It is not known what was the matter under discussion. Had it been of extreme importance, it is believed the president would have taken a special train for Washington, breaking off his visit to Philadelphia. The subject may have been Cuba, or Paris, whichever one it was, statesmen here are not disposed to consider it of exceeding importance.

About Cigars. Our trade on cigars both by the box and over the counter, has increased materially of late, and we find the special attention we give this department is appreciated by smokers. Quite a call has come for those Prize Medal and Exclusive cigars, 25 in a box, for 50c. They are certainly the best smokers for the money we ever sold. It is seldom you can buy a \$40 per M cigar for 50c. We have one, though, called En Ruta; it is all that can be asked for a sweet, lasting smoke. The "Standard" 10c; 3 for 25c. \$3.50 per box is a splendid cigar, as is also that clear Havana at 15c, two for 25c. It ought to be at \$110 per M. wholesale. Sanborn.

BYNUM STATES PENDING ISSUES

ELOQUENT INDIANA DEMOCRAT
TALKS TO REPUBLICANS.

Makes an Exhaustive Review of the Bi-Metallic Agitation—Gold the Only Invariable Measure of Value—Praises McKinley For Conduct of the War.

The citizens of Janesville had the opportunity last evening of listening to one of the foremost democrats of the country who is now laboring to promote the success of the republican cause. Hon. W. D. Bynum, of Indiana, commanded the closest attention of the audience at the opera house, while for nearly two hours he reviewed the financial history of the country and reached the conclusion from a full consideration of all facts, that the only way to prevent a disturbance in economic values which will prove disastrous to industry, is to elect the republican candidates for congress.

Hon. W. G. Wheeler called the meeting to order. He said that two years ago the people had administered a stinging rebuke to the worshippers of free silver, but they were again at the front striving to impair the credit of the country and debase the currency. It was therefore the duty of every patriot in the land to emphasize the verdict of 1896 by a still more emphatic condemnation of the heresies of the silver party than had been registered at the last election.

Mr. Wheeler then introduced Mr. Bynum as a man who had served for six years in congress as a democrat, but had been compelled to cut loose from that party on account of its efforts to debase the currency of the country, that a few owners of silver bullion might profit.

Mr. Bynum is a typical Hoosier, far above medium height, stalwart of frame, and speaks with ease and fluency and with an air of sincerity that carries conviction. He is thoroughly versed upon the financial question, clinging with great tenacity to the hard money theories of the founders and upbuilders of the party.

Mr. Bynum began his address without apology for his anomalous position and plunged into the discussion of the financial problem. He referred to the many attempts of the government to establish a double standard of monetary value, beginning in 1819 and continuing to the present time. The subject had received the careful consideration of committees of congress and secretaries of the treasury and all had come to the conclusion that such a thing was impossible—that the cheaper metal would drive the dearer from circulation and that all values would be measured by capacity for convertibility into gold. The exchanges of the world were made in gold. If we purchased goods in Europe we were compelled to pay the price of those goods in gold, for that metal was the only one recognized by the nations with which we have commerce. Silver is a fluctuating commodity whose value, like that of other products is measured by the gold standard. It is misleading to say that gold becomes dearer at times; its value remains ever the same. But silver is constantly fluctuating.

It is impossible to force silver into circulation except so far as trade demands it for making change in small amounts. People will not accept it in any considerable sums because of the inconvenience of carrying it about.

The charge that the republican party had demonetized silver was disproved by the fact that never before has so much silver been coined into standard dollars as since the alleged act of demonetization has been passed. The mints have coined silver to the extent of hundreds of millions of dollars, but the people refused to accept that coinage, but invariably chose silver certificates in preference.

The policy of the government had been to maintain a parity between gold and silver. This had been successfully done so far, but how long could this parity be maintained if the owners of silver bullion were permitted to take that bullion to the mint and have it coined into dollars? He alluded to the experience of Mexico, the only country in the world where the silver standard exists. The Mexican dollar, although it contains more silver than the American dollar, is worth less than half as much. A man can go to Mexico and purchase a dollar's worth of goods, pay for it in an American silver dollar and receive a Mexican silver dollar in change that contains more bullion than the American dollar.

Mr. Bynum enforced his statements by many illustrations and historical references, and explained the manner in which business is done nowadays by exchanges. Little money passes from bank to bank or from city to city. The exchanges are made through the clearing houses by striking balances.

In conclusion Mr. Bynum referred to the recent war with Spain which had been waged and brought to a successful issue by the present administration. No doubt there had been abuses in the army as has been charged; no doubt there had been incompetency; but in the history of the world there had never been an instance in which an army of such magnitude had been recruited and equipped where so little had occurred reflecting upon the government. The faults that had existed were those of individuals, not of the government, which had proved itself well worthy of the support and approval of every citizen.

It was necessary that the congress to be elected next month should be in full political accord with the president, and the speaker urged all democrats to rally to the support of the republican candidate for seats in the congress of the United States.

DOUBLE HEADERS MAY BE ABANDONED

NEXT LEGISLATURE TO ACT
ON THE MATTEE.

These Trains Are Daily, Run Out Of This City on the Northwestern Road—Railroad Men Have Never Liked the Idea—The Practice Has Caused Wrecks.

It is said that in the next legislature a bill will be presented forbidding what are known as "double-head" trains on railways, and the working railway men of the state are already taking steps to secure the passage of the measure. A "double-head" train is a freight train pulled by two engines and consists of a big train of freight cars, numbering often from sixty to seventy-five cars. The object in pulling these trains instead of having two trains with an engine for each is of course to save the expense of one train crew. The railway men say that not only for their good but for the public interest the custom of running these trains should be stopped. According to their statement these trains are a danger to the public, as they say that such large trains are extremely likely to break in two, and collisions result. In this city these trains daily leave the yards of the Chicago & Northwestern road.

While the double head train service saves the wages of a number of employees, these double-head trains are rough on railway employees as one conductor and two brakemen are expected to handle them. Numerous delays are occasioned by the trains being so large and as a result train crews are often out on the road unduly long.

A leading lawyer of the city questions the right of the legislature to pass such a law. "It would be as competent," he remarked this morning, "for the legislature to enact a law forbidding a farmer from hitching two teams to his wagon in order that he might carry a larger load of grain to market and save the expense of a driver. As to the question of safety the railroads are as much interested as the general public. No corporation would follow a practice that threatened the destruction of its property or the killing or maiming of its employees, as it is alleged this practice does. Perhaps the legislature might enact such a law; it has done quite as foolish things in the past; but the supreme court would knock it into a cocked hat in little or no time."

JUDGE RYAN TALKS RINGS AND PARTIES

WAUKESHA DEMOCRAT AT
SISTERS' FAIR.

Devotes Most of His Address to Denunciation of Rings in the Republican Party—He Thinks Most of the Ills of Misgovernment Spring From Ring Rule.

The attendance at the fair of the Sisters of St. Joseph last evening was much larger than for several nights past. The chief attraction was a discussion of the political issues of the day by Hon. T. E. Ryan, of Waukesha. He held that the political affairs of the state should concern every citizen. Every one should be a student of politics if not a politician. He had a disrespect for rings in any party. The ring has existed in the republican party for the past four years. It named those who should be appointed and what legislation should be passed. It was a wrong condition to exist in this free American country of ours. La Follette organized his ranks for overthrowing the ring and the machine, but he did not succeed. Scofield was renominated notwithstanding the fact that he had been charged with many things in the way of mismanagement.

The speaker in referring to the part that both parties took in the recent war alluded to such democrats as Admiral Dewey, Schley, Fitz Hugh Lee and "Fighting Joe" Wheeler, each name being received with a loud outburst of applause. Would the republicans have the people believe that it had not been for the democrats there would have been no war? The war was fought to a successful termination by the great American people. In the opinion of Mr. Ryan the American people are going too far in the praise of those who only do their duty. He believed that President McKinley did his duty and only his duty and he joined hands with those who congratulated the chief executive for doing his duty.

The speaker said he could talk to them for hours on the mismanagement of the republicans. The machine that nominated Scofield predominates at every session of the legislature. He asked his audience to study these questions and remember that the assembly had much to do with them. He advised them to stand by Mr. Russell for assembly to a man.

The speaker concluded by saying that his voice would be raised in an effort to overthrow the machine, and he would do it until election day.

MRS. MINERVA HAYNER DIES

An Old and Estimable Resident of Janesville, Passes Away at Chicago.

Mrs. Minerva Hayner died at the home of her daughter, Mrs. W. A. Lowell, in Chicago, Thursday evening, October 27. Mrs. Hayner had reached the ripe old age of eighty years. She had been in feeble health for some time, and her death was not entirely unexpected.

Mrs. Hayner was one of the early settlers of Rock county, coming here with her husband, the late Adam Hayner, in the spring of 1850, and locating on a farm west of the city in what is known as the Hayner neighborhood, where they resided until 1866, when they sold their property and moved to Janesville. They moved to Chicago in the summer of 1876.

Mrs. Hayner was a woman of exemplary character. She was a life long member of the Methodist church and exemplified her religious life in her every day living. Her husband died in the summer of 1894. The children that mourn her loss are Mrs. W. A. Lowell, of Chicago, Mrs. D. L. Fry, of Seattle, Clark Hayner, of Chicago, Mrs. J. G. Orcutt, of Chicago, Silas Hayner and Mrs. H. F. Bliss, of Janesville. The funeral will be held on Sunday afternoon at 2:30 at the home of her son, Silas Hayner, on North Jackson street.

ELOPERS RETURN AND ARE FORGIVEN

THEIR LITTLE ESCAPADE A
THING OF THE PAST.

Mrs. H. Leonard and George Church Are Once More Greeting Rock County Friends—Mr. Leonard and Mrs. Church Said to Have Forgiven All—Friends Are Surprised.

Several weeks ago it will be remembered that all of Rock county in the vicinity of the towns of Lima and Johnston was suddenly thrown into a high state of excitement by the elopement of Mrs. H. Leonard, of the town of Johnston and George Church, of the town of Lima. With as little ceremony as when they departed this same couple have returned and have quietly made their way to their respective homes where all is now said to be harmony.

Mrs. Church is said to have received her husband with open arms and he stowed on him a reception worthy a returned hero from the war.

Mrs. Leonard is also said to have been cordially received and all she seemed to have for an answer was:

"I only went away for a visit, and you might have known that I intended to return."

Just where the elopers spent the most of their time, and how they happened to elude the police, is a question that yet remains unanswered. That they made straight for Janesville after leaving home, there seems to be no doubt, and the fact that the police were once close on their trail in Nebraska made them move at a livelier rate than they anticipated. From there it is not known what route they took.

Mrs. Leonard had her three year old child along all of the time. Their return and forgiveness has caused nearly as much gossip among the farmers in that neighborhood as their elopement.

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

A Silenced Cough

Many cough remedies relieve the symptoms and not the disease. They contain opium or other narcotics that do little to cure the cough—but that is not curing. The right way to cure a cough is to cure it to stay cured. The right remedy must go to the real source of the trouble and remove it.

Smith's Wild Cherry Cough Balsam.

Is such a remedy. It stimulates the secretions, soothes and heals the irritated surfaces and loosens the cough—nature does the rest.

TWO POINTS ARE SETTLED.

Spain Yields Rule Over Cuba and Porto Rico.

THE ISLAND DEBT IS HERES.

Sweeping Terms of the Protocol Have Been Strictly Adhered To—Agreement as to the Philippines Is Yet to Be Reached.

Paris, Oct. 28.—Spain has agreed to the first two articles of the protocol. The negotiations of the Hispano-American peace commission have reached the point where the discussion is about to be transferred from the Atlantic to the Pacific. The clauses agreed to state:

1. That Spain relinquishes all claim and her sovereignty over and title to Cuba.
2. That Porto Rico and the island in the Ladronez, Guam, be ceded to the United States.

This result was not arrived at without discussion and frequent communication with Washington and Madrid. The Spanish delegates insisted that with Cuba should go certain financial obligations contracted by Spain and known as the Cuban debt.

The United States commissioners were equally insistent that only that part of the debt which could be shown to have been spent for the benefit of the people of Cuba could be admitted as a legitimate obligation which the island might be burdened with. This amount was but a small part of the \$150,000,000 of debt contracted prior to 1895, principally for municipal improvement.

Spain, after many futile attempts to induce the United States to assume or guarantee all or part of the debt or allow it to be saddled on Cuba, brought forward a proposition that if she agreed to the surrender of her sovereignty over Cuba without reference to the debt the negotiations were to proceed with the other provisions of the protocol, but if any disagreements arose and the two nations were unable to come to a satisfactory decision this agreement on the first two provisions should be nullified.

This proposition was communicated to Washington Wednesday, and when the committee met the American delegates announced to their Spanish conferees that they accepted the condition, and the commissions adjourned until Monday, when it is expected the American commissioners will present the American demands as to the Philippines.

Irretrievable French Cabinet.
Paris, Oct. 28.—President Faure has asked M. Dupuy to form a cabinet in succession to the Brisson ministry, which resigned on Tuesday. It is thought that the cabinet will be composed as follows: M. Dupuy, premier and minister of the interior; M. De Freycinet, minister of war; M. Constans, minister of justice; M. Delcasse, minister of foreign affairs; M. Ribot, minister of finance; M. Bourgeois, minister of public instruction. Dupuy will doubtless accept the task, unless unforeseen difficulties arise.

Overcome evil with good. Overcome your coughs and colds with One Minute Cough Cure. It is so good children cry for it. It cures croup, bronchitis, pneumonia, grippe and all throat and lung diseases. People's Drug Store, corner Main and Milwaukee street.

No Place for Camp in Hawaii.
Washington, Oct. 28.—The report of Gen. Merriam, commanding the department of the Pacific, regarding the facilities for a camp at Honolulu, has been received at the war department. He advises that as few troops as possible be sent to Honolulu. Camps cannot be established to any advantage, and it will be necessary to construct barracks for troops stationed there.

Dr. Bull's Cough Syrup cures a cough or cold in short order. One bottle of this wonderful remedy will effect a cure. It is absolutely the best cough syrup made. Price, 25c.

Canadian Towns Shaken.
Toronto, Ontario, Oct. 28.—A distinct earthquake shock was felt at Shawville, Quebec, at 1:10 a. m. Thursday, and at the same moment at Ottawa, the dominion capital. The tremor lasted for about fifteen or twenty seconds and was felt quite distinctly. It seemed to travel from east to west. No damage was done.

Will Reorganize the Soudan.
Cairo, Oct. 28.—The ministry of war has demanded a preliminary credit of £350,000 for the reorganization of the Soudan, the money to be devoted principally to the extension of the railway from Athara to Khartoum and the creation of a Soudan police force.

Use Dr. Bull's Cough Syrup for your cough or cold on chest or lungs. It is truly a wonderful medicine. No other medicine has made so many remarkable cures. Price 25c.

Santiago Cannon Coming.
Washington, Oct. 28.—Some of the cannon captured at Santiago are now on their way to the United States. These pieces will be stored at Governor's Island until disposed of by congress.

Our Cigar Department

Is the most complete in the city.
Our box trade is steadily growing.

We can give you a very good domestic Cigar, 25 in a box—Prize Medal and Excelsior—at 50c; nothing like them in the city for the money. We have a cigar called the Mascot, 12 in a box, for 50c. En Ruta, a 5c straight cigar, the finest article that fine stock and good workmanship can produce for the money; this cigar cost \$40.00 per M at the factory.

The well known Crema, 5c cigars, are the best 5c—6 for 25c cigars we ever put over our counter. You all know what the Fan Tan, Bill Baxter and Red Cross, 5c cigars are; it is needless to exalt their merits, we always have them in our case. A great many smokers are looking for a mild, fragrant, good 10c cigar, 3 for 25c or \$3.50 per box; we think we have found this cigar in the "Standard," made by Sprague, Warner & Co.; are already having a splendid box trade on it. A few particular smokers are looking for a pure Havana cigar that is not so heavy as to raise your hat at each smoking. We were lucky enough to secure some strictly all Havana cigars (and you know they are scarce these days) called the Diana Petit Invincibles. Don't get an idea because we call your attention to these cigars that they are cheap because they are not. They retail at 15c; 2 for 25c. The factory price on these goods is \$110.00 per M.
